All Americans sympathize deeply with Senator Long's wife and children. Those who have disagreed with Senator Long's political views will regret, perhaps more than others, the murderous attack upon him.

Senator Long, who with only good reason had predicted an attempt to assassinate him, was a man who fought in the open, said what he thought, in the Senate and elsewhere.

In a country where speech and opinion are not hampered, and the ballot box is the final arbiter, there should be no trace of government "tempered by assassination."

Three Presidents of the United States have been murdered, Lincoln, Garfield, McKinley, and numerous attempts have been made upon the late Theodore Roosevelt and President Franklin D. Roosevelt.

The conclusion is that the secret service, which protects our Presidents, or private bodyguards, such as usually accompanied Senator Long, cannot be relied on to thwart the assassin's plan.

Dr. Carl A. Weiss, Jr., who shot down Senator Long, was instantly killed by the senator's bodyguards; examination of his body showed 20 bullet holes in front, 20 in the back and two in the head, but the sub-machine gun and bodyguard did not protect Senator Long.

Universal Service sends information that Senator Huey Long, just before the attempt to assassinate him, had completed a new book, called, "My First Days in the White House."

In his "My First Days in the White House," Senator Long is said to have discussed frankly important political personalities—Senators Borah, Coudreau, and various members of the Cabinet. All politicians will be intensely interested in the details of the senator's latest book.

In the book, "President Long" allows farm organizations to appoint the Secretary of Agriculture, picks a Postmaster-General from the regular postal service, names former Governor Alfred E. Smith, director of the budget, with Cabinet rank.

W. E. Holler, vice-president of Chevrolet Motor Co., announces ninety-nine thousand and ten new Chevrolet cars and trucks sold in August, twenty thousand nine hundred and seventy-nine more than in July, an all-time record for August.

That is good news for Mr. Holler, Mr. Kauffman, and also Alfred P. Sloan, Jr., who is General Motors' also good news for the rest of the country. The sale of automobiles is the most reliable gauge of increasing business and prosperity.

Every family that gets a new automobile in for that reason, a happier family.

Within a few days, two women, one past sixty, the other twenty years old, have been found dead in their bathtub, apparently drowned. The slippery surface of a porcelain tub is dangerous for older people.

They should observe the greatest care; a slip, the head striking the edge of the tub, can easily cause unconsciousness, followed by drowning.

Rubber factories should make and extensively advertise rubber mats for the bottom of bathtubs, as a safety arrangement to prevent slipping.

First photo of Senator Long's assassin also affords an excellent character study of the man. He was Dr. Carl A. Weiss, Jr., a brilliant eye and nose specialist, and son-in-law of Judge B. H. Pavy, leader of an anti-Long faction. By his act, he sacrificed a promising career, his family happiness and his own life.

Auto Kills Officer, Suspect Held

Patrolman James Hughes of East Boston division was killed today by an automobile in Bennington street, between Orient Heights and Beachmont, near the Suffolk Downs track.

Police allege that James Dwyer of Wollaston was the driver. The same automobile, according to the police, later crashed into a parked car outside 808 Bennington street, and another parked car in Chestnut street.

U. S. Senator Huey Long dies of wounds inflicted by assassin's bullets. Blood transfusions fail to save life.

Senator Long's death seen best factor in 1936 presidential election. Proposed third party now lacks leader. Fate of "Share-Wealth" clubs in doubt.

Successor of Long as dictator of Louisiana considered unlikely. Political chaos follows his death.

Father Coughlin tells of warning Senator Long against death plot.

Fr. Coughlin Body to Lie In Capitol

By Associated Press
Albany, N. Y., Sept. 10.—Father Charles E. Coughlin was quoted by the Albany Evening News today as saying Senator Huey P. Long's death was "the most regrettable thing in modern history."

Father Coughlin learned of Long's death when he transferred from an early morning train to an automobile to be driven to Great Barrington, Mass.

"No matter how bitter our animosity may be, in a democracy such as ours we should never have recourse to bullets to settle political disputes," the Michigan priest was quoted as saying.

"The priest was quoted as saying, 'There are no children'."

His children, Rose, Russell and Palmer, were rushed to his side, but too late for the senator to recognize them.

Long's Death and U. S. Election

3D PARTY NOW LACKS LEADER

Huey Set to Run for President on "Share-the-Wealth" Platform

By GEORGE R. HOLMES

International News Service Staff Correspondent
Washington, Sept. 10.—The death of Senator Huey Long removes the principal threat of a major third party movement in the presidential campaign of 1936.

There may be—probably will be—an insurgent ticket in the field next year, but without the leadership of the volatile, rabble-rousing Kingfish politicians do not believe it will get very far.

It was Huey who was the spearhead, the motivating spirit of the insurgent wing of both old parties, and with his elimination there doesn't appear on the horizon anyone who can carry on.

Huey planned to run for the presidency next year. He said publicly that if the Democrats renominated Mr. Roosevelt, and the Republicans ran Mr. Hoover, "I'll be a candidate."

He said privately that he was going to be a candidate in any event, irrespective of the Democratic and Republican choices. He made one exception.

He said if the Republicans nominated Senator William E. Borah of Idaho he would support him.

Planned 3d Party

The nucleus of Huey's third party, as he planned it, was first of all his own followers, secondly, those of Father Coughlin, the Detroit radio priest, and thirdly those who subscribed to the philosophy of Dr. Francis T. Townsend, California physician, who brought out the novel idea that the federal government should pay \$200 a month to all persons who passed the age of 60.

Huey's own political tom-tom was "share the wealth," "every man a king." Father Coughlin's was, and is, radical monetary reform. Dr. Townsend's was, and is, old age security through the pension plan.

Between the three of them, provided they could get together, there were in a position to make a formidable next year for the regular parties.

nonness of both parties, and especially for Mr. Roosevelt. Such a third party movement as Huey intended starting would be calculated to hurt the Democrats more than the Republicans.

No New Messiah

But the leader had to be Huey himself. Dr. Townsend is too old. Father Coughlin is a cleric whose robes constitute an automatic barrier to political leadership. With Huey gone, the Leftists scan the political horizon to find it pretty well deserted so far as effective leadership is concerned.

Out of the ashes may arise an insurgent Messiah, but nobody would discern him today. It will be a long-debated question of just how far Huey might have got with his third party movement.

He made himself dictator of Louisiana by shrewd utilization of Louisiana's peculiar political setup, its Napoleonic code and its archaic laws which concentrate enormous powers in the executive. It is questionable whether in another state Huey could have got so far.

The appeal was especially pitched to the small farmer, the day laborer, the man from the docks of the creek. The assassin's bullet that struck him down prevented the greatest test of his political pulling power in the great cities, and in the states that lie outside the provincial delta.

Now it can never be known just how far Huey could have gone with his share-the-wealth and every-man-a-king evangelism. The mantle that he wore has dropped from his shoulders. And at the moment, the politicians are unable to see any other shoulders that it would fit.

Close Family Circle Broken by Death

Mrs. Huey Long, Huey Long, and Rose Long. On the crest of a wave which might have had him on to no man can say what further heights was Senator Huey Pierce Long when he posed for this picture with his wife and his daughter, Rose, as greeted him at Union Station, Washington, after one of his recent trips to Louisiana. Happy in his family life, still young and vigorous of mind and body, Long radiates cheerfulness and energy, seeming to feel no premonition of the dire fate in store for him.

BAY STATE CONGRESSMEN SAD

Massachusetts political leaders commented as follows today on the death of Huey Long:

Congressman Arthur D. Healey (D) of Somerville.—The death of Senator Long is a great shock. He was a courageous and colorful figure in the Senate, a man of unusual and untiring energy, with flashing wit and native ability. Very few dared to engage him in debate. In repartee he very seldom came out second best. He had the courage to express his convictions by both vote and voice, and even if he were alone took that position. In my opinion, he served a definitely useful purpose in the past few sessions of Congress. It is a shame such a colorful career has ended at its very height.

Former Congressman Frank H. Poon (R) of Fitchburg.—He was a very active fellow. It is regrettable that he had to meet this way.

Congressman Fehr G. Holmes (R) of Worcester.—I am very sorry to hear of his death.

Congressman Allen T. Treadway (R) of Stockbridge.—Senator Long was a very able man. Many were deceived as to his ability, because of the part he often played. Made no mistake, he was extremely able. Everyone is sorry his death came as it did.

Congressman William J. Granfield (D) of Springfield.—I am extremely sorry to hear that Senator Long passed away.

Congressman Charles L. Gifford (R) of Cohasset.—I am sorry to hear of Senator Long's death. It is extremely unfortunate.

Congressman Joseph W. Martin, Jr. (R) North Attleboro.—The death of Senator Huey P. Long is a national calamity. While I did not agree with many of his policies, I appreciated that great ability of the man. He was unquestionably one of the brightest men in the Senate.

U. S. Senator Marcus A. Coolidge (D) of Fitchburg.—I had very much hoped for the return of Senator Huey Long. The Senate has lost a very keen legislator.

Congressman John W. McCormack, (D) South Boston.—It was very much the death of Senator Huey Long. It is particularly regrettable when brought about as a result of violence. Senator Long was a man of unusual ability, and while I did not always agree

with his position on legislation, I respected his ability.

"Huey My Friend," Says General Johnson

By International News Service
New York, Sept. 10.—Major Pietro H. LaGuardia today expressed indignation over assassination of Senator Long and sympathy for the widow and children.

He said: "The assassination of Senator Long was most unfortunate. Assassinations have never served any public purpose. My deepest sympathy goes to Mrs. Long, their children, and members of the Long family."

Governor Herbert H. Lehman said: "I am very sorry indeed to hear of Senator Long's death."

General Hugh S. Johnson telegraphed Mrs. Long as follows: "Sincerely grieved at loss of your fighting husband. In spite of differences of opinion, I counted him as my friend."

Darrow Mourns Long's Death, Pays Tribute

Chicago, Sept. 10.—Clarence Darrow, lawyer and liberalist, expressed sorrow today because of the death of Louisiana's assassinator.

"I admired Long as a man," Darrow said. "I knew him as a man."

"As a man, he stood for what was right in political life. It was an unfortunate affair, and I feel very sorry for his death. He was a man of great force of character, and a valuable liberal."

Honor Guard

By Associated Press
New Orleans, Sept. 10.—Forty-four national guardsmen left here today for Baton Rouge to act as a guard of honor at the funeral of United States Senator Huey P. Long.

The body of the slain political "dictator" will lie in state at the Louisiana state capitol.

Long's Sister Grief Stricken

By Associated Press
Denver, Sept. 10.—Miss Cattie Long, sister of Senator Huey P. Long, was reported by friends to be on the verge of a collapse today.

Word of her brother's death was given to her over the telephone. She thanked the caller and gave way to grief.

Friends said she was so stricken by the news that she was unable to plan immediately her return to Louisiana.

When informed her brother had been shot, Miss Long cried: "Oh, my God! This is terrible! It can't be true! Who did it? A paid assassin?"

She recounted that when friends told her that the assassin was a smart man in kill Huey, she had replied: "Any dumb man can kill a legislator."

The conversation occurred several weeks ago when she left Louisiana and casually said to friends: "Don't let them kill Huey."

Long's Senate Seat Once Calhoun's

By Associated Press
Washington, Sept. 10.—The seat in the Senate once occupied by the great John C. Calhoun was vacated today by the death of Senator Long.

A front row seat on the first aisle, just to the right of the aisle where sat the Vice-President and Senate clerks.

From that seat—and from every spot in the Senate, so widely did he wander when he left Louisiana and casually said to friends: "Don't let them kill Huey."

But Long, always at three times, spoofed off his would-be assassins.

"I try to be polite in the Senate," he would say after some one had professed his affection "I abide by the rules," he would add, grinning.

He was suffering from a nervous condition. Judge Pavy was unable to attend the funeral of Dr. Weiss yesterday at Baton Rouge. Weiss was slain by Long's bodyguards.

Killer's In-Law Stricken III

Opelousas, La., Sept. 10.—Judge R. H. Pavy, father-in-law of Dr. Carl Austin Weiss, the Baton Rouge eye specialist who fatally wounded Senator Long, was reported under the care of a physician today.

He is suffering from a nervous condition. Judge Pavy was unable to attend the funeral of Dr. Weiss yesterday at Baton Rouge. Weiss was slain by Long's bodyguards.

LONG'S
Caustic
TONGUEHAD FLAIR FOR
VIGOROUS
PHRASES

By Associated Press
Washington, Sept. 10.—Here are some quotations from the speeches of Senator Huey P. Long.

"None will be too rich, none too big, none too small, but at the end and at the most—every man a king."

"When you go into a book and ask for a ballot for either Roosevelt or Hoover you're just asking for an introduction to his galekree of hell."

Hits Alphabets

"You can have the NRA and PWA and CWA and the UEO and QIN and any other kind of dumgummed letter code. You can wait until doomsday and see 25 more alphabets, but that is not going to solve this proposition."

"This ain't a Democratic party running the government now. It's a St. Vitus dance party designated by a blue buzzard, and a dead one at that."

The Louisiana had a flair for repeated use of phrases which caught his fancy. "Bug down to hell" was one. He referred to Secretary Ickes as "the Clinch Bug of Chicago."

Here is a poem Long wrote:

"Why weep or slumber, America? Land of brave and true, With castles, clothing, and food for all. All belongs to you."

"Ev'ry man a king, ev'ry man a king. For you can be a millionaire. But there's something belonging to others. There's enough for all people to share."

"When it's sunny June and December, too. Or in the winter time or spring. There'll be peace without end, Ev'ry neighbor a friend, With ev'ry man a king."

Same Bullet
Wound Fatal
To Cermak

New Orleans, Sept. 10.—Senator Huey Long's condition was known here today to be serious when doctors ascertained the bullet followed almost the same path taken by the assassin's missile which killed Mayor Anton J. Cermak, of Chicago, nearly three years ago.

Mayor Cermak, slain in February, 1933, in Miami, Fla., by a bullet aimed at President Roosevelt by the insane Giuseppe Zangara, died a victim of complications of peritonitis and colitis.

Sauvage's shot had pierced Mayor Cermak's colon in the same manner as the one which left Dr. Weiss' smoking revolver to wound Huey Long, surgeons here said.

The official description of the senator's bullet wound revealed double penetration of the transverse colon. This is a section of the large intestine which runs from left to right below the stomach.

The physician's parents, his wife of two years and his associates could give no reason beyond a passive political opposition to Long for the shooting.

THROUGH AT GRAVE

His bullet-riddled body was lowered into the grave while the throng stood in a heavy rain.

Six physicians, his associates, served as pallbearers. The office of the dead was attended by the Rev. F. L. Gassner, Interment was in Roselawn Cemetery.

Wealth from the Kiwanis Club and the Young Business Men's Club decked the casket. Large delegations from each organization attended.

Others present were former Governor John M. Parker, Congressman J. S. Sanders, Jr., Dean E. L. Tullis and District Attorney John P. Cram.

"I am convinced beyond any doubt," Dr. Weiss' father said, "that my son did not go into the case." Dr. Weiss' father said, "I do not think I shall ever know."

"What brought him there, will always be between him and his wife."

MOTHER RAFFLED
The mother, too, could give no motive.

"We had no word, no intimation, nothing," she said. "All that we knew is that he took living seriously. Right with him was right above everything."

"We were just a happy family group," the mother said. "We have always been so proud of him in every way."

"What brought him there, will always be between him and his wife."

The elder Dr. Weiss declared his son's attempt on Senator Long's life was not motivated by a proposed bill before the legislature that would have taken his law license. Judge P. H. Pavy, from one district to another.

"Absolutely not," he said. "He had no reason to take that sort of action because the judge did not take it seriously."

ASSASSIN LAID
IN GRAVE

By Associated Press
Baton Rouge, La., Sept. 10.—A flower-strewn grave today marked the resting place of Dr. Carl A. Weiss, assassin of Senator Huey P. Long.

The 39-year-old eye specialist, in turn shot down by Long's bodyguards, was buried yesterday following services attended by thousands of persons representing every strata of society.

Cape 'Bride' Unblushingly Denies Her Love for 'G-Man Husband'

PUZZLE

Continued From First Page

district attorney of Bristol county, Massachusetts, was present.

And as Vesta looked into the eyes of her very much alleged husband—he gazed at her as Clark Gable would, if he were the dashing young federal agent whose life was as nothing compared to his great love.

Said "G-Man" Mansfield, with an air that Merton of the Movies would have envied:

"Don't you love me any more?" And Vesta, a little irritable, it being so long past her bedtime said:

"No, I don't!"

"G-Man" Mansfield started, as though one of Polito Enemy No. 1's bullets had just struck him over the heart. He said with an effort—(these circumstances always call for speaking with an effort):

"Very well, Vesta. In that case we can of course have our marriage annulled."

Vesta, keeping her eyes open with an effort, said:

"Why should we have it annulled? I mean—there wasn't any marriage—no how could we have it annulled?"

At this point District Attorney Crosley asked, with an effort:

"Now, Vesta, weren't you in Seabrook on June 8?"

Dr. Ira LeBaron, headmaster of Vesta's school, has said that she attended a school picnic on June 8—the day Towns Clark Charles Thompson married Mansfield to somebody.

"No—I never was in Seabrook—and I was never married to anybody!"

District Attorney Crosley then said, with an effort:

"All right. We'll take this matter up in the morning."

VESTA JEAN ISHERWOOD
Wed or Unwed?

A Boston Evening American reporter asked Vesta, as the party "You told Mansfield you didn't

MYSTERY

love him any more. Why don't you?"

And Vesta said: "I did think I loved him when he was in Nantucket, and we went out together a few times. Then he began telling me he was a 'G-Man'—doing special work for the government—and I got disgusted. That's why!"

Efforts to discover from the witnesses to the marriage whether it was or wasn't Vesta whom Mansfield married have been balked by difficult circumstances.

Alphonse Scottie, restaurateur, who was one of the witnesses, sadly explained that he saw so many people in the course of a day, he couldn't remember what Mansfield's bride looked like.

Today they are showing some of Vesta's letters—and the signatures on the marriage license—to handwriting experts.

Upon their opinion now rests the denouement of the love drama.

Clearly if Vesta wrote both the letters and the license—she must have married "G-Man" Mansfield in Seabrook!

Meanwhile Mansfield has returned to his post watching with trained eyes, the slightest signs of law-breaking in the customers in his restaurant—or of dish-breaking by the bus boys.

While Gerald Harrington of the law firm of Edwards & Angell took over active conduct of the case for young Mansfield, moves were made which point to an early attempt by Mansfield to seek an annulment.

Vesta herself announced stoutly as she proceeded on a shopping tour:

"I'll let them use 'truth serum' or 'the detector'—or anything they like. I didn't marry Mr. Mansfield—and that's all there is to it!"

MEXICO PRIEST HELD; 3 SLAIN

By Universal Service
Tampico, Or. La. Barrancas, Mexico, Sept. 10.—Three of Father Macario Fernandez Agudelo's parishioners were shot down and killed by police in an attempt to save the Catholic priest from his captors.

In the tumult Father Fernandez Agudelo had a chance to slip away but he was quickly recaptured and taken to the Tlaxiaco state capital, Villa Hermosa, where he was jailed.

'HARRIE' NATION Man in Undies on Smashing Street

Early patrons in the Waldorf restaurant on Washington street, South End, were startled today when the huge plate glass window on the front suddenly burst.

But even more startling was the apparition framed in the jagged hole left by the smash.

A man clad only in summer underswimsuit stood outside in the driving rain wielding a hammer.

He stood there a moment, awaying slightly, and then went on with the partition on the door.

Then he fled.

Police in a prowler car chased him several blocks and finally brought him to a halt.

At the police station he was identified as Robert Schilling, 22, of Huntington avenue, South End.

Some explanation of his unusual behavior might be found in the charge of drunk and disorderly conduct which was placed against him.

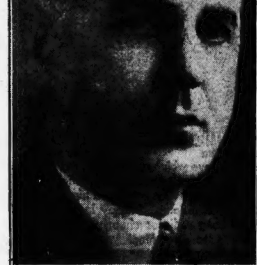

3 YOUTHS HURT AS CAR TIPS

Worcester, Sept. 10.—Three Boston youths narrowly escaped death on Southwicks' Cliff here when their car overturned several times today.

Thomas Khrige, 21, of Warren street, West Roxbury, suffered a fractured right arm. William Murphy, 21, of Dudley street, Roxbury, received multiple cuts of the face when he was hurled through the roof of the car. James Buggy, 24, of Forest street, Roxbury, received head injuries.

My Most Important Message to Women in 36 YEARS ..

Wm. J. Walsh

You can't fool your foot.
Wear the Improved Walsh-Arch Shoe.

I have had one goal during the last 36 years—a better comfort shoe for women. I have studied foot anatomy and shoe construction so that I might at all times have the shoe that would give women the utmost in foot freedom.

That meant espousing one shoe at one time—and another shoe as soon as a better one could be devised. In accordance with this ideal I announce

The Improved
WALSH-ARCH SHOE
as my only shoe for women

Nearly two years ago, after long research, I introduced new and revolutionary principles of comfort in the improved Walsh-Arch Shoe. Since then thousands of women have worn this shoe.

Their verdict is overwhelming. They say "It gives us a comfort we never experienced before."

Last season by far the great majority of women insisted on having nothing but the improved Walsh-Arch Shoe, saying that it excelled any other shoe in fit, wear and comfort.

I am therefore clearing out of my stock the shoes that do not measure up to the superior standards of the Improved Walsh-Arch Shoe.

I invite you to inspect the improved Walsh-Arch Shoe. There is no obligation to buy. See the smart new autumn styles, and let me explain the principles which make this the most perfect style-comfort shoe ever devised.

P.S. —

To make room for my improved shoe.

Cotton Patch to Dictator Life Story of Huey Long, Louisiana's Enigma

"MADMAN" OR "GENIUS" IN POLITICS

Rising from cotton patch to national prominence as United States senator and dictatorial boss of Louisiana, Huey P. Long attained the highest degree of state control ever recorded under America's democratic form of government.

He was a psychological enigma to many and a political phenomenon to virtually all experts. He conceived and did things which none but he thought possible, which none of the "old-line" politicians ever tried.

His followers called him "genius," "friend of the poor" and "champion of the people's rights."

An army of enemies whom he repulsed again and again at the polls or in the courts, dubbed him "demagogue," "madman," "dictator of constitutional government" and worst of all, "the greatest threat to the nation's future."

He called himself "Kingfish." It was a term applied originally in sarcastic vein to an opponent. Long assumed it jocularly for himself, and a ready political response and thereafter clung to it.

From the time he was a child, he was the dust of a Hillside estate in Louisiana's Winn parish, a tobacco-chewing, wine-drinking, gambling, and lawless life of 16 to become a traveling salesman, and a subsequent life of 1934 and 1935 passed years which he controlled and directed every activity to the political machine which he built.

In the national field he launched a campaign to restrict the income and "spread the wealth" by making every person in the United States free of debt and giving each individual \$5,000.

Long's state enactment of a debt moratorium law.

7th in Family

Long was born August 30, 1893, on a 230-acre farm which became part of the town of Winnfield, La., when the coming of a railroad transformed the fields into city lots. He was the seventh child in a family of nine.

He attended Shreveport high school, but did not finish the course. His college work was conducted in a special examination department of the University of Chicago, where he was a member of intensive cramming in the law school of Tulane University.

Then he won a special examination for admission to the bar and was admitted to practice in May 1915. When he was 19 years old, he was arrested at Shreveport, accused of being involved in a shooting scrape. An alibi cleared him.

He was arrested again in 1916, charged with being involved in a shooting scrape. An alibi cleared him. He had been arrested for a third time in 1917, charged with being involved in a shooting scrape. An alibi cleared him.

Long defeated the impeachment proceedings in the Senate. A two-thirds vote was necessary to convict and he got 13 senators, one more than one-third, to sign a

When he began his political career early, at 25 he was elected to the state board of railroad commissioners. He ran unopposed for governor when he was 30 and at that time that office had no political power, he consolidated his political power, he won the 1930 federal electoral prize and was elected to the United States Senate.

Defeating an attempt to impeach him, he consolidated his political power, he won the 1930 federal electoral prize and was elected to the United States Senate.

Thereafter he shuttled between the national and state capitals, defending his state organization against attacks and reinforcing it until his personal power virtually was absolute, while in Washington he has kept himself in the spotlight by bitter attacks upon the national administration.

Although Long's opponents dub him pot measure "claptrap" or worse and sought to discredit him by pitiless exposure of personal defects, he goes blithely on his way. He has undisputed talents as a lawyer, always ready to fight his adherents and wages incessant warfare against his foes, but with the calmness of a speaker, he knows when to say "enough."

He has been called a "demagogue" and when to speak logically and clearly.

That talent was displayed early. In high school he defeated his athletic as a mile runner and he always played basketball at any opportunity, but chiefly he was debater and his forensic work won him a scholarship at Louisiana State University. Lack of money for book expenses and books forced him to forego that opportunity and he turned his ready tongue to "chewing on the road."

After winning admission to the bar, he hung out a shingle in Winnfield and launched himself into politics. In 1918 he was elected state railroad commissioner for the fourth Louisiana district, cleared his residence from Winnfield to Shreveport, and began his long fight with his Standard Oil company.

He related in his autobiography that as a Winnfield attorney he had acquired stock in the Standard Oil company, and as a result, it was

In New Orleans and purchased a home on Audubon boulevard in that city, shifting his residence from Shreveport.

Fights Raw Deal

The Senate custom that new members listen and learn meant nothing to the red-haired Huey. He said: "I 'broke the wealth' project and denounced his party's leader, Senator Joseph T. Robinson of Arkansas, for "come promising" with the Republicans. In one of his early speeches he became so personal in his comment upon fellow senators that he was forced to stop.

In February, 1932, Long was back in New Orleans, had himself named Democratic national committee member and supervised selection of a delegation to the party's national convention in Chicago. Before that body met he came out with a "share our wealth" project for the presidential nomination and when his delegation's credentials were challenged, was a majority vote in the convention, hailed as the first test of Roosevelt's strength.

After the convention he campaigned in Arkansas for Mrs. Hattie Caraway, who won the Democratic nomination. Then he canvassed Louisiana for Roosevelt and thence took his sound trucks and literature distributing automobiles to the Dakotas in advocacy of Roosevelt's election to the Presidency.

By the Louisiana Governor Long's expenditures of \$700,000 in the year 1931, reached into a state treasury fund and in 1932 an extensive program of fresh trucks and literature distributing automobiles to the Dakotas in advocacy of Roosevelt's election to the Presidency.

Long people, assembled in Baton Rouge demanded that Governor Allen summon the Legislature in special remedial session. Senator Long hurried there. Many of the state dealers were armed and the militia and state police were called out. One citizen was wounded and extensive bloodshed narrowly was averted.

Consequently Long opened a personally conducted court inquiry into an alleged plot which he said the enemies had formed to kill him. The hearing was conducted inside a ring of machine guns and bayonets and Long claimed after it that he had proved his contention.

On August 8, a month before the Baton Rouge shooting, Long took the Senate floor to read to that body a list of the state senate to assume that post, then went into court and personally argued a victory against the outer suit.

His next move was to engineer a speech, that he had told a bodyguard to kill an opposition legislator and that he had participated in a scandalous "studio party" in New Orleans.

Long defended the impeachment proceedings in the Senate. A two-thirds vote was necessary to convict and he got 13 senators, one more than one-third, to sign a

MUEY LONG

The "Kingfish" in Action

Long for legal work or by purchases from clients. In Shreveport, he built a \$40,000 home and was "in a way to becoming a millionaire" when the big campaign, controlling the pipe lines, refused to take off from independent wells. "My share became worth less than 40 cents over night," he said.

Beats Impeachment

Long manipulated a finding favorable to the independents through the public service commission and later the legislature declared the pipe lines public carriers.

When elected governor in 1928, Long went after his political foes, clearing them out of various state offices and arousing bitter enemies.

In March, 1932, when he called a special session of the Legislature to enact a tax of five cents a barrel on crude oil, the storm broke.

The House of Representatives presented articles of impeachment containing 19 charges. Among them were accusations that he had attempted to bribe legislators, used the appellate power to influence the judiciary and flaunted the constitutional limitations on the governorship, that he had told a bodyguard to kill an opposition legislator and that he had participated in a scandalous "studio party" in New Orleans.

Long defended the impeachment proceedings in the Senate. A two-thirds vote was necessary to convict and he got 13 senators, one more than one-third, to sign a

ETHIOPIA WARNS FOREIGNERS AS TROOPS MOVE

By Associated Press
Addis Ababa, Sept. 10.—Provincial governors today ordered all foreigners in the interior of Ethiopia, including Americans, to come to the capital province for safety.

Twenty-one German women and children left Addis Ababa for Djibouti, French Somaliland, Dr. Ueberfeldt, first secretary of the German legation, also departed.

Dr. A. Jussani, oriental secretary of the Italian legation, who participated in the incident at Ustul last December, when numerous Italian and Ethiopian troops along the border.

The Ethiopian war ministry said it was advised Italian infantry and artillery were moving southward from Amara, Kertessa, toward the weakly-held frontier near the Mareb river, dividing Ethiopia and Eritrea.

British Fleet All Set To Hold Suez Canal

By Associated Press
London, Sept. 10.—Strategic maneuvering of Great Britain's fleet in the vicinity of the Suez canal to preserve its domination of the Mediterranean is nearing completion today.

Admiral Sir Ernle Chatfield, first sea lord of the admiralty and chief of naval staff, directed the operations.

Italian men-of-war at the same time ploughed the sea between Sicily and Africa in maneuvers which were officially denied to Rome as "not connected with the international situation."

Admiral Chatfield, flag captain to Sir David Beatty in the battle of Jutland during the first world war, was the man of the hour.

While the actual ship movements were guarded with great secrecy, the press pointed out that the responsibility of preserving the empire's life line through the Suez canal rested with him.

Italy's Final Peace Price Asked by League Chiefs

By WILLIAM HILMAN
Geneva, Sept. 10.—The League of Nations has asked Premier Mussolini to accept as a peaceful solution of his quarrel with Ethiopia, Emperor Haile Selassie was requested to indicate how far he was willing to go in concessions to Italy to avoid war.

Simultaneously the committee of five appointed by the League council to seek a peaceful settlement received its first shock, when Baron Aloisi, chief Italian delegate, informed Salvador de Madariaga, of Spain, the committee chairman, that Italy had no intention of answering the committee's appeal for "truce" to both Italy and Ethiopia.

This together with new warlike movements of Italian troops toward the Ethiopian frontiers was viewed gravely here.

200 GREET NEW U. S. JUDGE

Newly-appointed Federal Judge George C. Sweeney of Gardner, former mayor of that city, today took his place on the federal bench in the Federal building, with more than 200 friends in attendance.

The bench and clerk's desk were covered with floral array. The Reverend J. Howard Childy delivered the invocation shortly before 11 lawyers, three of them women, were admitted to practice in the federal court.

During this ceremony, Judge Sweeney, youngest judge in this district, sat on the bench with Judges Ellahs, H. Brewster and Hugh D. McCallen.

Judge Sweeney is 38 years old. He is married and has three children, George, Jr., Sheila and Judith. They will make their home at 17 Dorset road, Waban.

U. S. Plans New Project For Low-Rent Housing

South Boston's newest low-rent housing project will be exactly that, federal officials announced today.

The 130 families to be accommodated on a 28-acre site along Old Colony boulevard are to be only those, who for the first time in their lives will be enabled to leave slum dwellings.

No. 2 project, a \$1,000,000 affair to be carried through in addition to the original \$3,000,000 Old Harbor Village Project No. 1.

Housing officials said that they hoped the new project would enable the City of Boston to dislodge slum houses that will thus be vacated.

The area to be used in project No. 2 is already under option by the government. It is bounded by Hyde street, Old Colony boulevard, Lynch's gasoline station and the New Haven railroad tracks.

Andrew H. Peterson, chief engineer for the government, said that approximately 31 acres are under consideration, although plans call for 23 acres.

About 50 per cent of the land is to be used for walk-up apartments and low houses. The remainder of the land is for lawns, gardens, play yards and other amusements.

Paul G. Kirk, state commissioner of public safety, and the Old Harbor Realty Company, of which Robert J. Bottomley, 295 Washington street, is treasurer, were among those mentioned as representatives for parcels under option.

Marriage to Impostor Her Second Love Tangle

Mrs. Marjorie Lundin, former Stoneham governess, who figured in a divorce muddle here six years ago, today found herself the center of another marital tangle.

In 1929, declaring her lawyers had erred, she had John Henry Lundin's divorce set aside and obtained a divorce herself.

She told the court that Lundin had lived with her only two weeks and she supported him for that period.

After getting the divorce she went to Brooklyn, N. Y., to work as a governess, and there late last month she married a man who falsely represented himself to her as Barry Willis, noted Boston architect.

MURDER BY POLICE
Even then the police of Boston and other Massachusetts cities were seeking this impostor for the slaying losses in various places, while posing as Willis.

The impostor, he a model, presented to Willis by former President Hoover, which he alone from Willis' office on Joy street.

A week after the marriage in New York, the bridegroom disappeared, and \$1,000 of her jewelry still missing from his bride's chest, she believed he was a famous man—she wrote to the real Royal Barry Willis who informed her that she had been imposed upon.

CASHES BAD CHECK
Realizing that she did not even know who her husband was—not does she know her own name by marriage to him—the next word she would come here to help police find him.

But the impostor-bridegroom came here ahead of her and yesterday victimized her friend, Mrs. William Woodruff of Williams street, Cambridge.

Showing the medal and a letter which Mrs. Woodruff had recently written to Mrs. Lundin, he induced the Cambridge woman to cash a check for \$25, which proved worthless.

6500 HOLD JOBS ON NAVY'S NEW SHIPBUILDING

Approximately 6500 workers at the Boston Navy Yard and at the Fore River plant in Quincy will be kept on their jobs, it was disclosed today, as a result of the Navy's new shipbuilding program.

With the majority of the work on fasting layoff, they are now assured of work for long periods—two years at the Navy Yard and three years at Fore River.

Few, if any, new workers will be employed, however, in either place.

The Navy Yard has been assigned the task of constructing two destroyers at \$1,600,000 each in addition to the two which will be launched simultaneously next fall and the two whose keels will be laid immediately afterward.

At the Fore River plant will be constructed a \$2,737,000 aircraft carrier.

QUINCY IS DELIGHTED
Of the 4500 workers at the Fore River plant, 2000 will be employed directly on the ship. The other 2500 will be engaged in tool-making and other shops.

Mayor Thomas S. Burgin of Quincy expressed satisfaction that the aircraft carrier contract had been awarded to the Fore River plant.

It will mean, he declared, that many families will be missing from the welfare rolls this winter and for the next three years. Quincy will find herself in a better financial condition than in years, he added.

The destroyer and aircraft carrier construction jobs here were included in an announcement from Washington that contracts had been let for building of 13 warships in private yards and 11 ships to navy yards throughout the country.

OTHER N. Y. WORK
Other craft to be constructed in New England under the plan to build the navy to full treaty strength will include three destroyers at Bath, Me., three submarines at Groton, Ct., and two submarines at Portsmouth, N. H.

On Saturday at 11:30 a. m. at the Boston Navy Yard, will occur meanwhile the first simultaneous launching in the yard's history.

At that time the destroyers Conyngham and Case will slide down the ways. After the ways have been cleared and checked over, late for two more destroyers, to be named Mugford and Talbot, will be laid—probably in two weeks.

When these are completed and launched a year from now work will begin on the two destroyer jobs just awarded.

DISLOYAL FOR LOVE Girl Spy Faces Paris Trial

By Associated Press
Paris, France, Sept. 10.—Lydia Oswald, German beauty who found that love and espionage do not mix, was summoned before a naval court today for trial as a spy.

The 26-year-old blonde fraulein charged with playing alien to two French navigators in an attempt to pry naval defense secrets out of them.

Her carefully devised plan miscarried, she confessed, when she fell in love with Lieutenant Jean De Forville, one of her selected dupes, and agreed to marry him.

The handsome lieutenant and his friend, Ensign Rene Guignard, have been cleared of suspicion of treason, but will stand trial on charges of "conduct unbecoming officers" in associating with the accused girl.

BUICK DEALERS OFF TO FLINT

Three hundred and twenty dealers and executives of the Buick Buick Boston organization have left for the company factory in Flint, Michigan, for a preview of the 1936 models.

Public presentation of the new cars will be made September 20.

The visiting New England automobile men will be addressed by engineering department heads who

will give them first hand knowledge on the new features embodied in the 1936 Buicks.

COLORFUL FIGURE GONE FOREVER FROM NATIONAL SCENE

BEST FOOT FORWARD—The order is "Forward!" and here is United States Senator Huey P. Long walking aggressively, confidently, to a political rendezvous, just as he always walked confidently, aggressively, into the successive crises of a colorful career—and just as he walked to the death that spat at him from the muzzle of the assassin's gun. A debonair figure, and one that friends and foe alike regret to see thus removed from the national scene.

(All pictures on this page from International News Photograph Service)

WITHOUT PREMONITION—This is one of the last pictures taken of Huey Long before his death. It shows him on a political mission to Oklahoma City, where he was laying the groundwork for a campaign he is never now to have opportunity to wage. Greeting the Louisiana senator is Mayor Frank Martin, with other political dignitaries waiting eagerly in the background for opportunity to shake the Kingfish's hand. Oklahoma was only one of several southern states in which Long was planning to establish a far-flung political front.

"UNTIL DEATH DO US PART"—Here are Senator Long and Mrs. Long at the time of their marriage in 1913. A humble couple then, with humble aspirations, never dreaming of the career in state and national politics which was to make Huey Pierce Long one of America's outstanding figures—and which was to end in the sudden tragedy of his death.

HUEY AT 17—Looking backward across 25 eventful years, here is Huey Pierce Long at the age of 17. All set, even then, to start going places, with his umbrella and valise in hand! A tall, gangling youth Long was in his 'teens, with an alert sparkle in his eye as only evidence of the inner fire which was to flame into national prominence.

BUSY MAN'S CHORE—Days packed with action at the national capital—and the responsibilities of his Louisiana dictatorship—left Senator Huey Pierce Long no time for lolling in a barber's chair. So here he is, shaving himself, and using an up-to-date safety razor at that, in his Washington office, just before an appearance on the Senate floor. Huey shaves, as he talks, vigorously and with his mind intent on the job at hand.

TROUBLE BREWING—Huey Long in a meditative mood such as this is a figure that spells trouble in copious quantities for somebody. The Kingfish, chewing a thumb reflectively, is listening to testimony during hearings probing alleged graft in the Department of Commerce. "About time this got hot," the senator seems to be thinking hopefully. But he'll pounce no more on hapless legislative foes.

STIMULATING
BUT NEVER IRRITATING

WE admit that smoking Old Golds is no guarantee of fair weather. But many smokers tell us they find a special charm in Old Golds. A stimulating quality that bucks up the spirits, even if the weather is rough.

Smokers describe this charm as a gentle "pick-me-up." It's due wholly to Old Gold's finer tobaccos. Selected for extreme mildness; aged and mellowed beyond the usual standards. Such tobacco may be relied on to exert a kindly influence on the nerves and spirits.

SMOKERS! GET THIS!

WE GUARANTEE that Old Golds contain the choicest Turkish and domestic tobaccos grown; the finest obtainable at any price. Only such fine old tobaccos can give that natural aroma and fragrance of Old Gold cigarettes.

Mr. Boston

Terrier
Coach Turns
Editor

By PAT HANLEY

Mr. Jack Conway,
Sports Editor,
Boston Evening American.
Dear Jack:

Football coaches think they are great writers, and writers honestly believe they know more than football coaches. Because of this, I want to reciprocate for your allowing me to be a columnist today. Any time you feel the urge to coach, you are welcome to step out and conduct our practice for a day.

This gives me a great idea. In November, Boston University meets Rutgers, Brown and Boston College in a "three team" game. I think I'll try to line up a group of coaches such as Lou Little, Elmer Layden, Pop Warner and a few others and have them as guest coaches during that month.

So I thought, Jack, I wouldn't swap coaching for any other job in existence today. It is great to be with a gang of kids all the time. It keeps you young.

My squad on the whole is much better than last year's. I feel that the Terrier crew, Runners have been fighting about now, however, that we have a great team and are going to sweep through our schedule. I perceive it was true.

Top notch football is the goal I always strive for. But we are still a few years away from Boston University.

18 OUT OF 42

Last year I had a squad of forty-one men. This year only eighteen are returning. Some are graduated, others went to "admiral probation," and some were unable to return because of financial difficulties.

Lack of finances has not robbed a lot of many promising freshmen I had last year. These things are all part of the game, however, and we do not think I am putting in the weeds.

Being an optimistic soul by nature, which I know is not unusual for a coach, I do want to tell all my Boston friends that the Terriers will be stronger than they have been in many years.

This team has not won more than three games in a season for more than ten years.

I feel that we have a good chance to better that mark this year. Rutgers, Brown and Boston College may prove a bit too tough for us yet, but Tufts, Vermont, Bates, Miami and New Hampshire are in our class.

Our ninth opponent and opponent in the "Tale of Terriers" was thought it might be a "breather" when we scheduled the tilt but reports from my Western friends have me rather worried.

ROOM FOR ALL

It is the unexpected, though, that makes football what it is. Every Saturday, Sunday or some other institution some and live over a nationally known institution. It is in this uncertainty that makes football so much more than a game.

Many people have asked me whether I think racing and professional football are going to cut into college grid receipts greatly. The answer is that there is room for everybody.

A good football team will fill its stadium with racing and other sports going on at the same time. People today want some ride sports value for their money and will go where their eye is getting it.

In conclusion, Jack, I want you to know that the Terriers will be aggressive this fall. Perhaps in a few years we will have a team that will bring glory and credit to this city.

If you can sneak out to practice some of this fall, I would be tickled to have you watch us.

Cordially yours,
"Pat"

VALENTI
VISITS BOXING
COMMISSION
TODAY

By Sam Cohen

Rip Valenti, matchmaker of the Goodwin A. C., plans to visit Dan Kelley, boxing commissioner, today to have the Lou Brouillard-Al McCoy bout, which will be staged by the Goodwin A. C. at the Garden September 20, recognized as a light-heavyweight championship clash.

McCoy was crowned light-heavyweight champion by the National Boxing Association when he defeated Joe Knight of Miami, Fla., in a 15-round bout at Montreal last Thursday night.

Valenti hopes that the commission will recognize this championship. It does the winner is more than likely to surpass Bob Olin as holder of the crown.

McCoy and Brouillard are the outstanding light-heavyweights in the country. Olin has released numerous offers on the part of Valenti to meet either in a title match here.

Brouillard, in fact, twice defeated Olin and has him on the floor, while Olin avoided McCoy after a verbal agreement to meet him if he liked Tall Littleman.

McCoy knocked out Littman, and then Olin said he'd sign following a bout between McCoy and Bob Godwin. So McCoy took on Godwin and knocked him out. The same thing resulted in Montreal, McCoy eliminated the field, and Olin ran out again, so the N. B. A. handed him the crown when he liked Knight.

Should the Bay State commission decide to recognize this battle, the New England classic of a decade, then Valenti will have it extended to 15 rounds.

The match is sure to prove a tremendous attraction.

Scrimmage
CARDEDBOYS TO GO AT
IT SATURDAY

The eagerly anticipated varsity scrimmage will be held Saturday afternoon, Coach Al McCoy of Northeastern University told his gridgers today.

With the reporting of Delph Chaplick, Nathan, N. H. guard; Hank Abbruzzese, reserve center; Larry Templeman, reserve back; and Art Bauer, blocking back, McCoy finds his squad fairly well complete.

Thus he will have a veteran for every post, although without doubt several promising sophomores will break into the regular lineup for the opening September 21 against the Amherst.

Fighting for line berths are such outstanding last year freshmen as Frank Lavatch at center, Zapper Blum and Joe Bond at guards, Jim Colligan and Frank McNair at tackles, Dick Tromp, Bob Richall and Bill Harwell, at ends.

Jimmy Cahill, Gus Rock, Mitt DeVee, and Gordon Wright, all sophomores, will try to beat out the veteran ball-carriers for backfield posts.

The Braves were easy for their perennial nemesis, Exe Carleton, who gained his 11th victory in two years over them in the opener, 8 to 1. With Fred Frankhouse pitching, the Braves won the game, but a game fight in the nightcap but eventually surrendered to Larry French, 5-1.

These bawling Braves keep right on climbing. They lost in a row over the Athletics to increase their seventh-place margin to 1 1/2 games and pulled within a game of the sixth-place Senators, who were slapped down by the champion Tigers.

Walter Brown, 260-pound power pitcher, was shut out, as the Yankees made it three in a row over the Athletics.

Jimmy Wilson Gets Even
With Frankie Frisch

By Joe Cashman

Jimmy Wilson is paying Frankie Frisch back with interest.

They used to be pals in St. Louis you know. Then Frankie became manager and fired Jimmy. The latter, however, point of the Cubs but never forgot what he termed the "raw deal" he got from Frankie.

Now, Frankie, in first place, and Jimmy, in seventh, are swapping punches in the Mount City, and as far as Jimmy has taken two out of three rounds.

What's more, the Cubs and the Giants have been winning, and today finds Frankie's fan-base going of would-be champions only a game ahead of the Cubs and but three games up on the Giants.

Curt Davis, Jimmy's mound ace, broke Frankie's boys on Monday, while the Cubs were wallowing in Braves' hands and the Giants were being rained out in Pittsburgh.

So, at the moment, the Chicago entry has won one more and lost three more games than the Cubs, while the Cubs have won the few and dropped only one less than the defending champion.

From present indications, the final result will remain in doubt until the last week and maybe until the last of the season.

The Braves were easy for their perennial nemesis, Exe Carleton, who gained his 11th victory in two years over them in the opener, 8 to 1. With Fred Frankhouse pitching, the Braves won the game, but a game fight in the nightcap but eventually surrendered to Larry French, 5-1.

TACKLES NEEDED BADLY AT B. U.

SHIFTS

PLACE 1934 TACKLES AT GUARD

By Murray Kramer
Boston University
needs tackles.

If Pat Hanley can develop four of his lower classmen into fair tackles before the season opens, the Terriers are going to be a dangerous club this fall. Otherwise they will be just another football team.

Curiously enough, the first-string tackles from last year are back. Fred Nichols and Sid Borstad are both available, but instead of being tackles this year they have been moved in to guard.

Both are great as guards, and they will give the center of the Terrier line plenty of strength.

FOUR SOPHS

Bob Allen and Walt Gainer, their understudies, still have plenty to learn about tackle play and Coach Hanley feels that they are still a year away.

This leaves the burden right up to Brony Kastantin and a half dozen sophomores.

Kastantin is a curious case. Brony is a six foot four inch lad from Brooklyn who runs about 200 pounds. As a sophomore he showed great promise, but dedicated his arm before the first game and was out for the season.

Last year he ripped a leg muscle at the start of the season and was out until the last game of the year. If he makes the grade this fall he will certainly help the situation greatly.

The sophomores who are being watched are Glenn Luchembel, Felix Dixon, Ralph Hodson and Joe Flieger. George McPherson, who has not as yet reported, is another who will be scrutinized carefully.

The material is there potentially, but the question is Pat Hanley's mind is how quickly these boys can be developed. He feels that next year this group will be the core of a great tackle squad, but whether they will come along rapidly enough to make the Terriers a real threat only time will tell.

ON WAGON

A squad of 48 reported for the opening practice . . . this is the largest first-year group the Terriers have ever had. . . Co-Captain Dick Van Idersline got quite a hand when he reported in his ice wagon . . . he looked around and then went back on his route . . . he came back for the afternoon session and teamed with the other co-captain, Warren McNamara, and led the squad in a short outdoor drill.

Old Jude must think quite a bit of Pat Hanley. . . Every time Pat announces practice, either in spring or fall, Jude pays a visit. . . The farmers in the drought areas ought to look into this phenomenon.

All the veterans reported with the exception of Bill Crum. . . Bill is having rather a tough time financially and may not be able to return to school. . . He was the first-string fullback last fall, and his absence would be felt. . . He is also the baseball captain-elect for the coming year.

The squad will work out twice a day until September 23, when college officially opens. . . During these two weeks conditioning and fundamentals will play an important part. . . Particular stress will be given passing, blocking and kicking.

Sid Spauls, who has been the camp chef for several years, is back on the job. . . Sid has quite a job feeding a horde of football men, who seem to have insatiable appetites. . . He hasn't had a complaint yet. . . That must surely be culinary experience in some form or other.

THIRD STRAIGHT For N. Y. Yankees

New York, Sept. 30 (UPI)—Homer Runge by Jack Saltzberger and George Selkirk provided the New York Yankees with a 5-to-3 victory over the Cleveland Indians.

It was the third straight win of the series for the Yankees.

Saltzberger connected with one in the fourth, and Selkirk hit him with the baggy empty go the sixth.

MUTUAL Admiration SOCIETY

BILL SHEPHERD, DICK HARLOW

By Walter Killey

Richard Cressen Harlow and William Shepherd have much in common. Not the least is a great admiration for each other.

Fate brought the pair together at Western Maryland. They achieved national fame simultaneously, Dick as Bill's discoverer, head coach and tutor, Bill as the protegee.

I knew he would make good regardless of the caliber of company in which he was playing. He is a great player, and I never made any bones about saying so.

"He will play his heart out for Casey. That's the kind of a fellow he is. He doesn't know the meaning of 'foat'."

"If Bill were playing for five cents a game, he would still be there trying to score a touchdown on every play."

A GAME 'UN

Which calls to mind the Western Maryland-Eastern Shore game at Baltimore Stadium last fall.

The score was 40-0 against the Eagles at the time with only three minutes to go. Shepherd had played throughout. He suffered a severe leg injury and was almost in tears as Harlow insisted on him leaving the game.

Fate continues to link them in fellow bondage as Harlow comes to Boston to handle the Harvard football situation and Shepherd comes here as a Redskin.

Harlow, already ensconced at Cambridge for next Monday opening football season, has followed with avid interest Bill's recent successes, as he proved the sensation of the All-Star Program at Chicago and of the Intercollegiate game at Madison on Sunday.

If word had been willing to gamble on Shepherd, the Crimson's success to Eddie Casey remarked today.

THE LOWDOWN

Shepherd is equally as laudacious on the subject of Harlow.

"Dick is the greatest coach in the country," he proudly remarks. "I would stack him up against any of them."

"Why, he had several coaching opportunities held out to him last fall, all good positions."

"He turned the others down and took over Harlow, and the reason was that he thought it was the hardest proposition to turn into a success and therefore the most worthwhile. That's the opinion of a fellow he is."

The new Harvard coach has been summing up his mountain ascent in the Poconos. He has debilitated his around his famous rock garden, his rare plants and ferns.

But mostly he has thought and worked in the terms of football, outlining his campaign for the coming season and testing out the theory of plays best adaptable in what he learned of his material from his brief stay-up of the spring training.

SHOVEL PASS

His new staff were guests at the Pocono retreat during the past week.

There were Rex Crowther, line coach; Mike Palm, backfield coach; Wesley Feller, and coach; Neil Stakley, freshman coach; Henry Lamar, junior varsity coach, and Jimmy Dunn, assistant backfield coach, the last named the other half of the Shepherd team which first introduced the now famous shovel pass to New England football.

I have yet to see our Harvard team under fire, Harlow wrote today, "as it would be life to me to see them on my possibilities. We confined ourselves to blocking and tackling in the spring."

"We had no signal drills or running through of plays, as until we have had a scrimmage, sometime during the end of next week, we will just have to leave Harvard's forthcoming chances dangling in mid-air."

Speculator, N. Y., Sept. 30 (AP)—Max Baer says Joe Louis is going to have a hot time on the night of September 24 if he wants to stay more than a couple of rounds.

"Louis simply doesn't know what it is to be hurt," Baer said. "He hurt plenty on the night of the 14th and then went on and won. I think he'll make good my boast to chase him out of the ring before two rounds have elapsed."

New York, Sept. 30—That red hot internal row at Madison Square Garden may come to a head late this month . . . The dope is the directors will carefully read Col. John S. Hammond's charges of waste and mismanagement and just as carefully bury them in a pigeon-hole . . .

Then Col. John Reed Kilpatrick and his friend, Jimmy Johnston, will arm-and-arm it out of the board room with their flag still there.

Here is a vote for "Black Mike" Cochran as the most valuable player in the American League . . . Eddie Casey, coach of the Boston Redskins, is all smiles at the performance Bill Shepherd, his prize rookie, gave in the Chicago All-Star game . . . The testimonial dinner for Steve O'Neill was cancelled at the last minute . . .

Since 1929 Tulane football teams have won 60 games while losing only 12 . . . Three cheers for the Texas pitcher who got out of a sock hole to turn in a no-hitter . . .

Wood Coming Star

If Gil Dohis can scrape up a center, teams on the Cornell football schedule had better watch out . . . Louis Roesel, Primo Carne's No. 1 manager, is an Italian banker.

Take a tip from Helen Jacobs and don't count Sidney Wood out as a future Davis cup performer . . . One has an idea that Bill Tilden, Wood may not "arrive" until he's 25 or 30 . . .

Earl Kirtland is burned up because American League owners won't let their stars go to Mexico next winter . . . Do they hide the auto keys and the keys to the house from every night?

Danny Vance, who had a goal of 200 major league victories, was only three shy when the Dodgers canned him recently . . . Although he is hitting .333, Bill Terry has batted in only 60 runs for the Giants.

The Harvard Club of Boston will lunch with the Cadet Corps on the day of the Harvard-Army game at West Point . . . First lines waiting around for reserved seating.

Arkansas wants you to know when more better athletes are turned out Arkansas will do the turning . . . Scholastic Rowe, the Moore, Dean, Len Wernke and Travis Jackson, Bill Carr of Olympic fame, Ed Hamm, former Olympic broad jump titleholder, and four Wyckoff and Don Huston, football headlines, are all Arkansas graduates.

Naked in the Flames

The Mother Who Forgot Herself for Her Babies

By FLOYD GIBBONS

HELLO, EVERYBODY:

Numbers are funny things. Ever notice how a certain number will stay in your memory and connect up with some important event or adventure in your life? It might be a telephone number or a date or just a number, but if the experience was big enough, that number will not be forgotten to the day your number is drawn in the lottery of Life and Death.

1927 is the number that Mrs. James J. Clare of 2401 East Third street, Brooklyn, New York, can never forget. That number is woven in the fibres of her heart. The most terrifying experience in Mrs. Clare's life happened in that year—April 19, 1927—and the number of the house where Death sought her and her babies was also 1927—1927 Kings highway in Brooklyn.

Mrs. Clare was taking a bath, about 2 o'clock in the afternoon of that fateful day, when she detected the small of smoke. Her two babies, one three years old and the other only nine months, were in the top floor apartment with her. The little boy was playing on the kitchen floor and the baby sleeping peacefully in his crib in a bedroom.

Mrs. Clare, without waiting to dry herself, hurried as she was into the kitchen, thinking that perhaps something she had left on the stove was burning, or that the little boy in some manner or other had set fire to something while playing.

Everything seemed all right in the kitchen, and yet she could still smell smoke. She looked carefully about the apartment but could detect no fire.

Puzzled, she searched through the clothes closets, and though smoke now permeated everything, she could find no sparks or flame anywhere.

All this time Mrs. Clare was so frightened that she forgot that she was attired only in nature's garments. Thinking that perhaps the fire was next door, she opened the front door into the hall. As she did so, she staggered back in horror.

A blast of smoke and flame surged into the apartment as though she had opened the door of a raging blast furnace! The smoke blinded and choked her and the flames licked hungrily at her naked body.

It that awful moment, Mrs. Clare says, her only thought was for her babies. She was unable to approach the door to close it, but she staggered through the rooms, knocking furniture over at every step.

The whole house was on fire! The apartment was black as night from the smoke and she could not see her hand before her face. But somehow or other she stumbled over the baby's crib and clutched him to her heart. The cries of her little boy led the frantic mother to her other child and, finding him, she clutched him by the hair and staggering along blindly, half dragging the little boy with her, she finally reached the room that led out onto the fire-escape.

It took ages, Mrs. Clare says, to get the window open. Half suffocated by the smoke, she fought off a strong desire to lie down and rest. But the mother instinct would not let her quit. Alone, she thinks, she would have died in that room. But the babies MUST live!

The window finally opened, she pushed her babies before her onto the fire-escape. The air was good there, but she knew she no longer had the strength to carry them down. She fell exhausted and half suffocated, across the window-sill. From the distance came a voice. Mrs. Clare thought she was dreaming.

"Don't drop the children," cried the voice, and a moment later, Mrs. Clare says, an angel in the uniform of an officer from the mounted police burst through the smoke. The angel's name was Joseph McKeever and he must have been shocked after he had passed down the children and turned to help Mrs. Clare. But he tore down a curtain from the window and wrapped it around her unclothed body and in a few minutes she was safe on the ground and watching all her worldly goods burn to ashes in the fire that destroyed the building.

Weight

By R. C. Forbes

Although Franklin Roosevelt's pledges have not always been honored by his performances, and although many men of affairs have ceased to place 100 per cent reliance upon presidential promises, the disposition is to place re-

ance upon the President's latest promise, that industry will be given a respite from government harassment.

The financial world, analyzing the reasons for the President's attitude, conclude that he has had it brought home to him that new deal interference in business and new deal upstart confidence have become widely unpopular, that the people are

This column has repeatedly chronicled that employers are greatly gratified over the untakable veering of public sentiment away from autocratic, born onslaughts on the rights of individuals, business organizations, and towards restoration of Americanism. This has counted more than anything for the improvement in social values; the quickening of business enterprise, and rising faith in the politicians had done worse, shot their bolt.

The week-end brought spectacular animation and an average price to the highest in four years. When the auctioned at noon on Saturday, the upswing was under full way.

Serious students of affairs point out that the President's last statement avoided any definite commitment regarding balancing the budget, currency stabilization, constitutional amendments, the administration's policy towards the Supreme Court or other fundamental matters which have been and are exercising grave concern.

"What the President says is encouraging, as far as it goes. It does not go very far, it does
